PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience in web development. Specialized in frontend technologies including React, Next.js, and TypeScript, complemented by solid backend expertise with .NET and C#. Proven track record in database migration, SQL Server query optimization, and RESTful API development. Focused on building scalable, secure, and high-performance applications using Agile methodologies (Scrum, Kanban) and development best practices including unit testing and technical documentation.

PROFESSIONAL EXPERIENCE

Full Stack Developer | La Mutual de AMR

Rosario, Argentina | October 2024 - Present

- Develop and maintain .NET APIs (C#, ASP.NET Core) supporting critical internal business processes
- Design and implement secure, scalable endpoints with SQL Server, optimizing frontend-backend integrations
- Lead technical migration from Adabas to SQL Server database, including CRUD operations development
- Optimize SQL Server queries, improving response times and stability for high-volume operations
- Implement unit tests with Jest and data mocks for behavior validation

Frontend Developer | La Mutual de AMR

Rosario, Argentina | November 2023 - October 2024

- Migrate and maintain internal applications to Next.js, improving performance and scalability
- Build reusable, modular React components with TypeScript following software architecture patterns
- Implement unit testing with Jest and React Testing Library, reducing production bugs
- Document components with Storybook, enabling seamless collaboration between design and development teams
- Optimize UX ensuring responsive and accessible interfaces across multiple devices

Software Developer | NEORIS

Rosario, Argentina | October 2023 - November 2023

- Develop and maintain enterprise applications using .NET Core and .NET Framework
- Collaborate with business analysts to design technical solutions for management systems
- Build interactive and responsive user interfaces with React

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, TailwindCSS, Bootstrap, SASS, Jest, React Testing Library, Storybook

Backend: .NET, C#, ASP.NET Core, SQL Server, MySQL, Firebase, RESTful APIs

Tools: Git, GitHub, GitLab, Jira, ESLint, Prettier, Visual Studio, VS Code

Methodologies: Agile (Scrum, Kanban), Version Control, Code Review, CI/CD

EDUCATION

Associate Degree in Programming

National Technological University (UTN) | July 2023

High School Diploma in Economics and Business Administration

EESOPi N°3081 "Dante Alighieri" | December 2017

FEATURED PROJECTS

Architecture Portfolio Website - Estudio Peisino | 2024

- Developed digital portfolio for architecture firm with project management system (residential, apartments, commercial)
- Integrated sections with renders, blueprints, and detailed information with scalable system for new project uploads
- URL: <https://peisino.com.ar/>

LANGUAGES

Spanish: Native

English: Intermediate

Italian: Basic

CERTIFICATIONS

- Advanced Next.js and Next.js 14 | SQL Databases | .NET Fundamentals and Entity Framework
- Introduction to C# with .NET | Data Management with LINQ | Unit Testing with C# and .NET
- APIs with .NET | State Machines in React.js | .NET + Angular LAB (Neoris)
- Data Analysis with Microsoft Excel | JavaScript Array Manipulation
